EDUCATION

Université de Montréal (Mila) — Montreal, Canada
Masters of Science in Computer Science — *Expected Start Date: Sep 2020*

· Research Supervisor: Prof. Yoshua Bengio

University of Oxford — Oxford, UK
Bachelor of Arts in Computer Science — *Oct 2017 - Jun 2020*

· Represented University of Oxford in ACM International Collegiate Programming Competition (ICPC)
· First-Class Honours Results in First and Second-Year Examinations
· Received distinctions in all exams to date
· Thesis Topic: Extending meta-learning methods for supervised learning
· Research Supervisor: Prof. Shimon Whiteson

RESEARCH/WORK EXPERIENCE

University of Oxford — Oxford, UK
Research Intern with Prof. Shimon Whiteson — *Jul 2019 - Oct. 2019*

· Topic: extending meta-gradient-based meta-learning methods via learned loss (meta-learning)
· This work was accepted to NeurIPS 2019 Workshop on Meta-Learning

Kyoto University — Kyoto, Japan
Research Intern with Prof. Atsuko Sehara-Fujisawa — *Dec 2018 - Jan 2019*

· Topic: clustering genes using weighted gene correlation network analysis (unsupervised learning)

Brave Software — London, UK
Research Intern — *Jun 2018 - Sept 2018*

· Worked on a client-side recommender system for delivering personalised advertisements and conducted user studies to determine important factors to consider in the development of the recommender system
· Built a model for CTR prediction of ads and investigated methods to estimate the shopping intent of users based on their browsing history
· Wrote and managed a pipeline which analyses user browser behaviour and generates ad statistics and communicated results with the product team

Whizz Education — London, UK
(Winter) Research Intern — *Dec 2017 - Dec 2017*

· Created a tool to separate hundreds of students into optimal study groups based on test results
· Used data compression techniques to optimise the grouping algorithm and improve page loading times significantly
· Presented tool to a panel of managers, including the Director of Education

Ivy Global — Toronto, Canada
Software Engineering Intern — *Aug 2016 - Jun 2017*
Software Engineering Intern — *Dec 2017 - May 2018*

- Developed a personalised study plan feature for students that analyses exam responses and generates individual reports
- Redesigned Content Management System (CMS) for content writers, improving the efficiency and simplifying the development and uploading of exams
- Assisted in porting websites from ASP Classic to ASP.NET

SELECTED AWARDS/ACHIEVEMENTS

Travel Grant, NeurIPS Workshop on Meta-Learning (Acceptance Rate: 27%) 2019

Bronze Medal, North Western European Regionals ACM ICPC, *Netherlands* 2018

Bronze Medal, 29th International Olympiad of Informatics (IOI), *Iran* 2017

Gold Medal, Canadian Computing Olympiad, *Canada* 2017

Bronze Medal, North Western European Regionals ACM ICPC, *UK* 2017

Summer Conference Invitee, 36th International Mathematics Tournament of Towns, *Russia* 2015 (Topic: Enclosing walks and image segmentation algorithms)

Summer Conference Invitee, 35th International Mathematics Tournament of Towns, *Russia* 2014 (Declined)

International Olympiad Qualifier, Asian Pacific Math Olympiad 2015, 2017

National Olympiad, USA Math Olympiad Qualifier (2016), Canadian Math Olympiad Qualifier (2015-2017), USA Computing Olympiad (Highest Division: Platinum) (2015-2017), Canadian Computing Olympiad (2015: Silver Medal, 2016: Bronze Medal)

TEACHING EXPERIENCE

Practical Demonstrator, Design and Analysis of Algorithms, University of Oxford, UK, Hilary Term 2020

Practical Demonstrator, Concurrent Programming, University of Oxford, UK, Hilary Term 2020
